

# German Engineering - No luxury car tax!

*Left: Supercoil automatic smoke curtains and glazed smoke/heat vents control smoke movement in shopping centres. Right: Fibershield fire curtains upgrade glazed doors and windows.*

## & Invisible Fire & Smoke Protection

As is to be expected from German engineered and manufactured products, Supercoil smoke curtains and Fibershield fire curtains are dependable and reliable. Better yet, there is no luxury car tax enabling all projects big and small to benefit from these cost effective solutions.

- Reduce compartment sizes and avoid expensive additional services to new buildings and extensions
- Maintain continuous flow of building occupants and wide open spaces in non-fibre mode
- Protect openings up to 50m wide in a single module
- Fire ratings up to 2 hours
- Upgrade glazing systems to smoke or fire ratings

*"Dont forget to ask us about our new glazed smoke/heat vent systems for atriums!"*

### Also available

- smoke curtains • fire curtains • smoke/heat release vents
